

AQUA-MODULE

**WHEN INNOVATION
TRANSCENDS THE
TERRESTRIAL IMAGINATION**

www.aqua-module.com

A **SUCCESS** story which blows its 10th candle

Founded in 2011, Aqua Module launched into the innovative segment of modular floating pontoons, before imposing its leadership on activities with high added value in the aquatic environment (light buoys, event platforms, professional and leisure structures, energy supports and botanicals, shows, water sports...).

AQUA-MODULE has been able to adapt to the evolving needs of companies and individuals, counting on the foresight of its founder, Julien Négri, and the expertise of its engineers, managers and technicians dedicated to the most popular techniques in the aquatic environment.

Through 360 ° support, you are assisted from the design to the completion of your turnkey project.

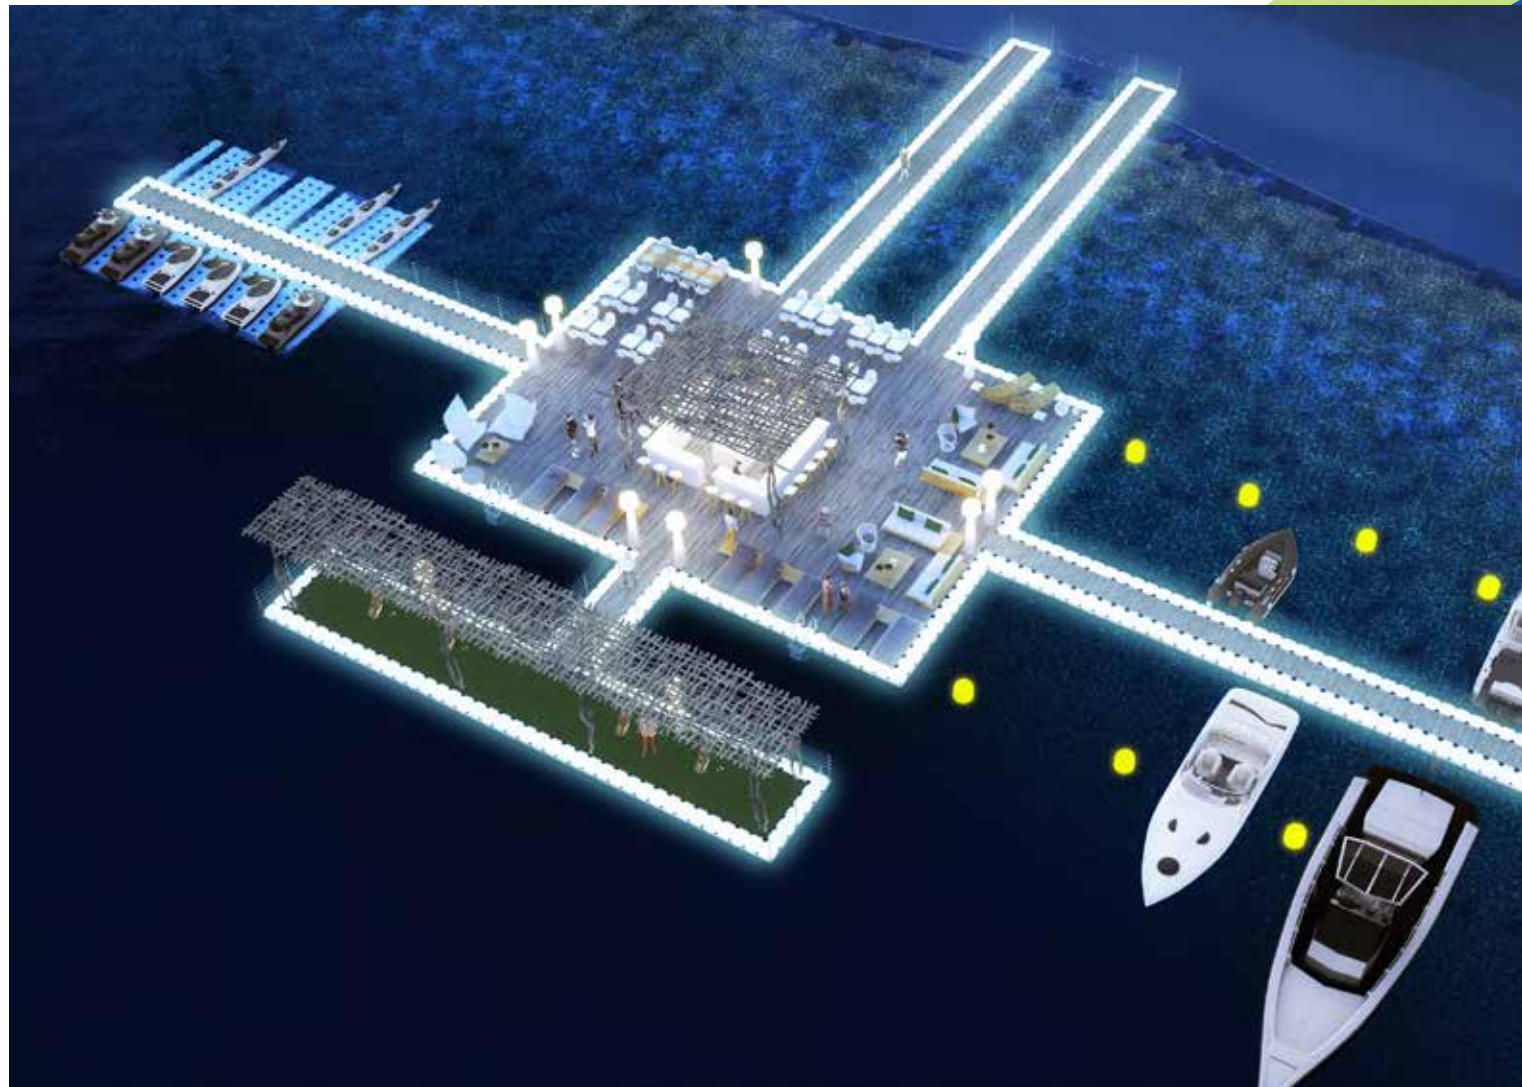

Scientific merit at the heart of the services offered to our partners

At AQUA-MODULE, we have chosen to protect our inventions to promote our services to customers. A majority of our solutions are patented; a guarantee of exclusivity for partners who trust us, and a mark of differentiation for our products in a sector whose watchword is innovation.

A company which makes its distinctions the leitmotif of its development policy

Winner of multiple awards: Marina High Tech Show Prize in Villeneuve-Loubet, First Prize in the Digital In Pulse competition from Chinese giant Huawei, Entrepreneur network winner, Selected during the Blueconnect competition, in addition to the patent filed for a connected light buoy ... , Aqua Module is recognized as a technologically leading player.

AQUA-MODULE

10
years already!

THE CUSTOMER AT THE CENTER OF OUR BUSINESS STRATEGY

"The experience of our employees, combined with the technological advance of our products, allows us to meet all types of needs under the best conditions of timing and quality".

*Julien Négri,
Founding President d'AQUA-MODULE.*

Solutions **innovative, efficient and customizable to your most ambitious desires!**

AQUA-MODULE has developed an integrated range of solutions dedicated to the nautical segment. Our revolutionary technology has enabled our customers to benefit from innovative products and expert support in project engineering to support their aquatic concepts from A to Z.

MODULAR PLATFORMS

Adapted to any corporate or private event, our modular installations are compatible with various aquatic environments: sea, lake, pond ... With our Aquadock and Cubedock ranges, give free rein to your imagination! We meet your expectations and offer you the nautical configuration of your dreams.

Why Aquadock?

- A registered and patented French manufacturing concept, suitable for high standing event applications: elegant design, sober colors, phosphorescent lighting.
- Great freedom for the dimensions and aesthetics of your installation: geometry of the parts studied to maximize the configuration possibilities.
- High resistance to climatic, saline and thermal aggressions.
- A safe and ecological solution: 100% recyclable platforms - non-slip and grooved surface for rapid water drainage.
- Ease of maintenance and installation: high pressure washing- light and handy components- a simple wrench for assembly and disassembly.

Why Cubedock ?

- Great freedom for the dimensions of your installation: the 0.50m X 0.50m or 1m X 0.50m modules are assembled in groups of 4 using a connector.
- High buoyancy resistance: a basic capacity of 350 Kg / m² which can be doubled in double layer installation.
- High resistance to marine conditions: side closures and screw joints give your platform the flexibility it needs in rough seas, material resistant to salt, acids and UV.
- A safe and environmentally friendly solution: 100% recyclable platforms - no edges or sharp edges, no joints or rivets.
- Ease of maintenance and installation: high pressure washing - light and handy components - indicative installation time for 50 cubes: 2 hours (2 people).

LUMINOUS RANGE

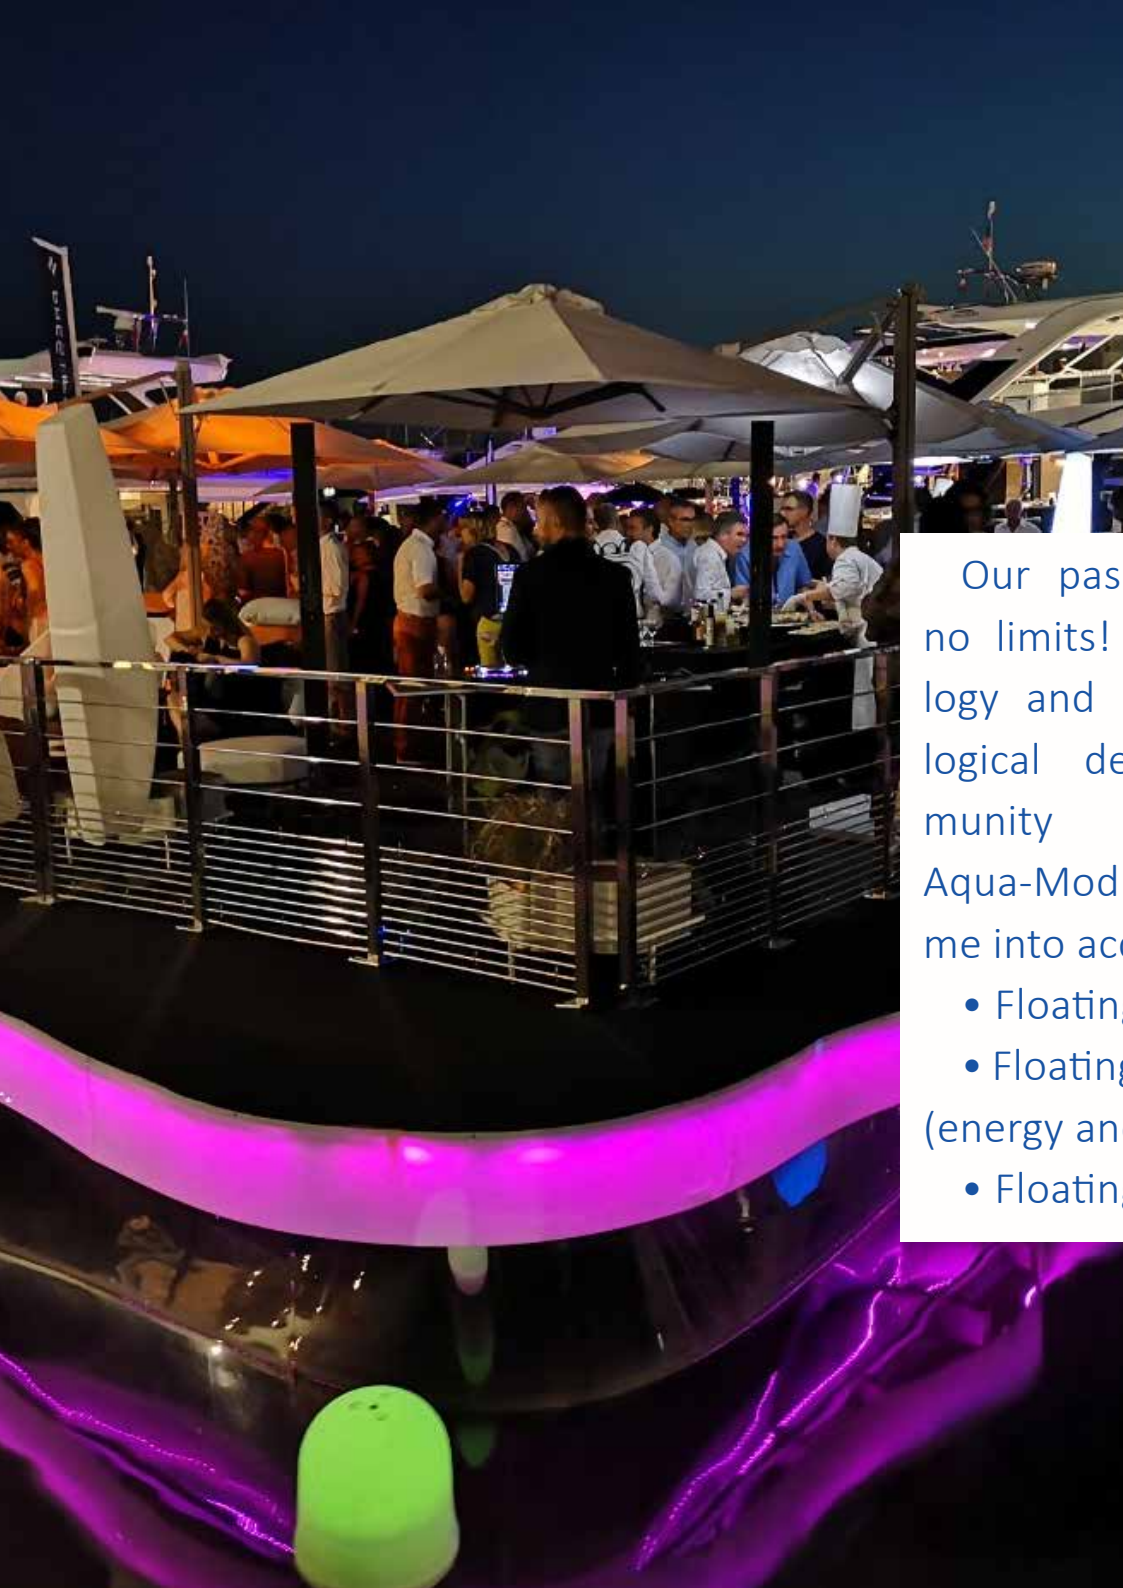

AQUA-MODULE is undoubtedly an avant-garde company in lighting solutions in nautical environments. We are proud to have brought to market the 1st connected buoy equipped with sensors. A real revolution in the fields of maritime signaling and aquaculture, this patented technology is perfectly customizable (measurements of oxygenation rates, integration of video surveillance systems, anti-shark repellent, etc.).

- Safety: Resistance to impact and cracking.
- Economy: Automatic switching on as soon as night falls and automatic switching off at daybreak.

At Aqua-Module, the magic of fully autonomous aquatic light is expressed as you wish.

- Light buoy.
- Luminous or luminescent water lines.
- Luminous or luminescent furniture.
- Luminous cubes.

STRUCTURES INNOVATIVE

Our passion for the aquatic environment has no limits! That's why we have put our technology and our know-how at the service of ecological developments to contribute to community well-being. Maritime engineering Aqua-Module has translated the environmental theme into acclaimed large-scale achievements:

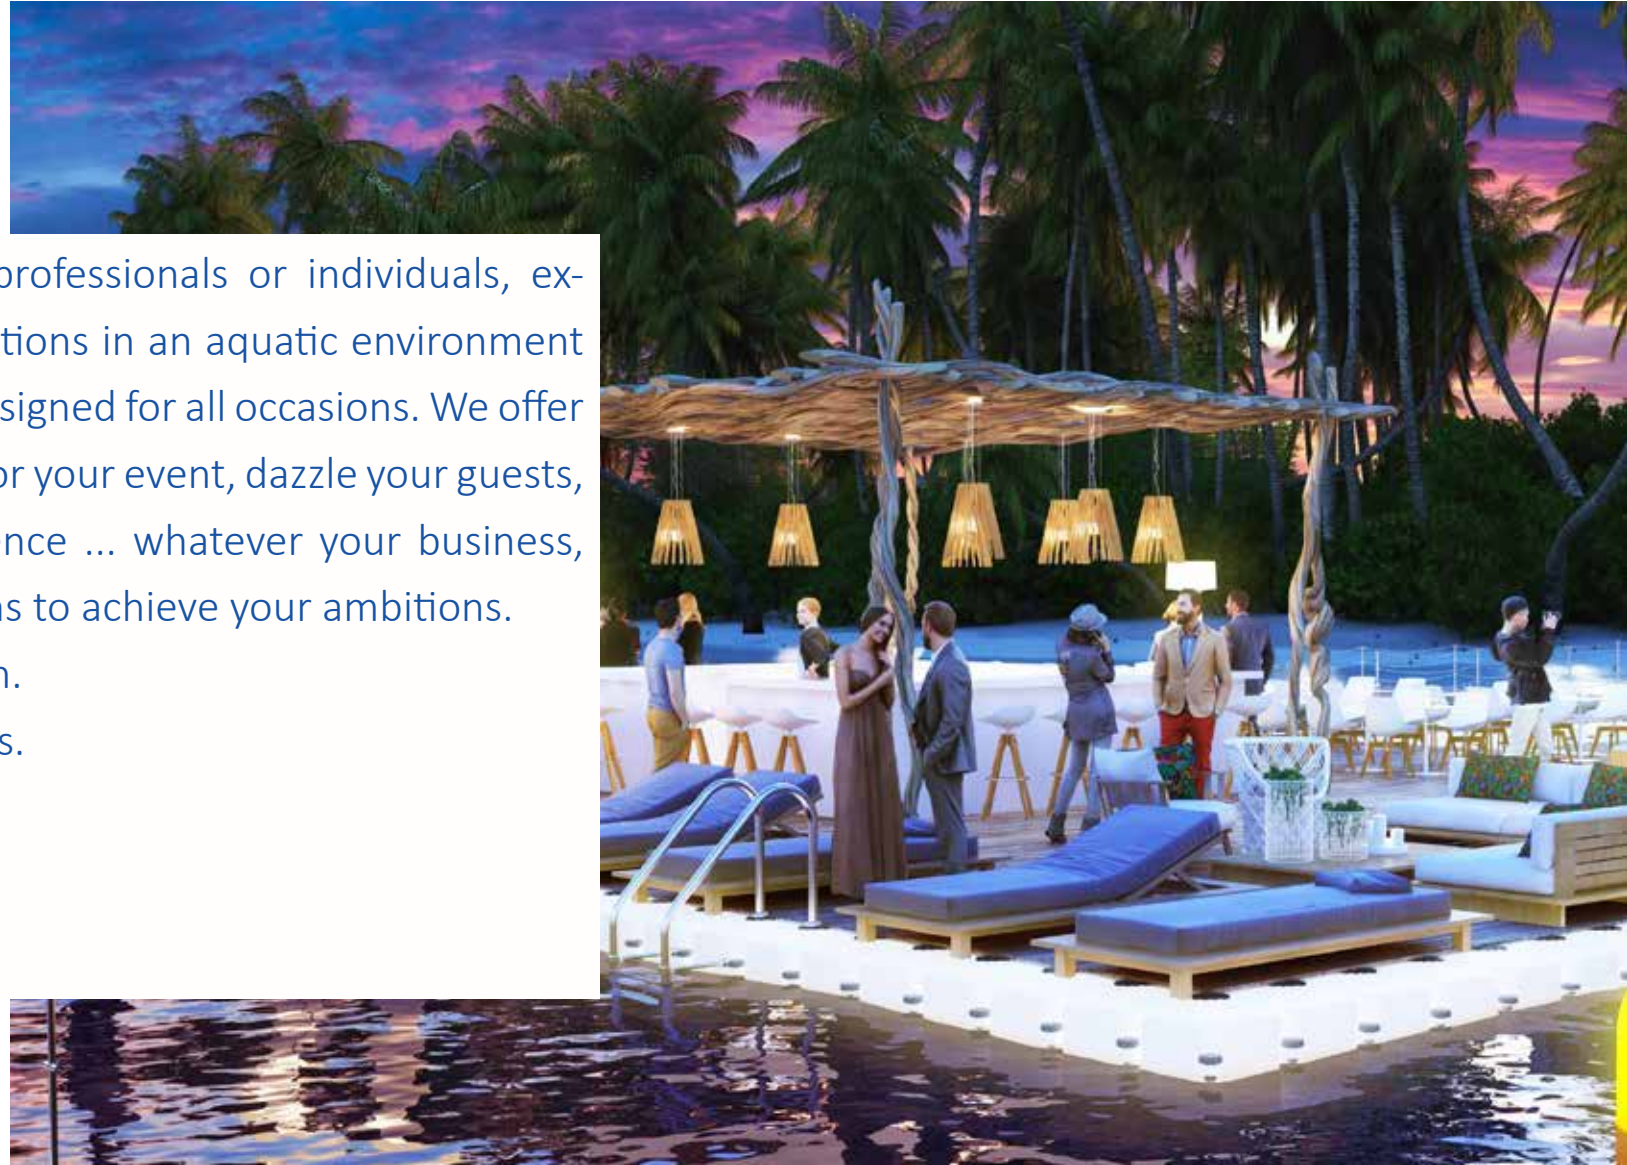

- Floating structures reserved for aquaculture.
- Floating vegetable garden in complete autonomy (energy and sanitation).
- Floating solar platform.

OUR CONCEPTS WILL OFFER YOU MODULAR SOLUTIONS TURNKEY

Whether you are professionals or individuals, experience vibrant emotions in an aquatic environment thanks to concepts designed for all occasions. We offer you the right setting for your event, dazzle your guests, live an exotic experience ... whatever your business, we give you the means to achieve your ambitions.

- Aquatic recreation.
- Pyrotechnic shows.
- Events.
- Private beach.
- Jet Ski Ramps ...

A COMPANY ENVIRONMENTALLY FRIENDLY

More than a value that has defined us since the launch of Aqua-Module, ecological responsibility is a fundamental benchmark both in our strategy and in our product and service offering.

Our business plan is part of a logic of sustainable development, supported by societal equity and environmental sustainability.

We act daily so that all our processes, materials, accessories and equipment are eco-responsible products.

PATENTS

Our patent policy is a guarantee of quality for our customers. We have always made the choice to protect our innovations in order to give credibility to our products and gain the trust of our partners.

Many of our technologies, concepts, designs and models are subject to protection with the INPI and EUIPO. A capital that sets us apart in a segment with high scientific technicality.

CÉRÉMONIE DE REMISE DE PRIX

21 SEPTEMBER

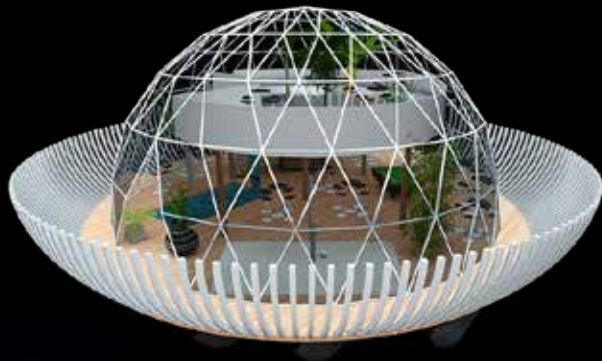

AWARDS

Crowned with success, Aqua module's remarkable journey in less than a decade has earned it several awards that are the pride of all parts of our company. Our technology, our know-how and our expertise have been recognized at several international events:

- Innovation Prize at the Marina High Tech show in Villeneuve-Loubet.
- Digital InPulse Nice competition prize organized by Chinese telecommunications giant Huawei.
- Distinction from the founder of Aqua-Module, Julien Négri, as the 2018 winner of the Réseau Entreprendre Côte d'Azur.

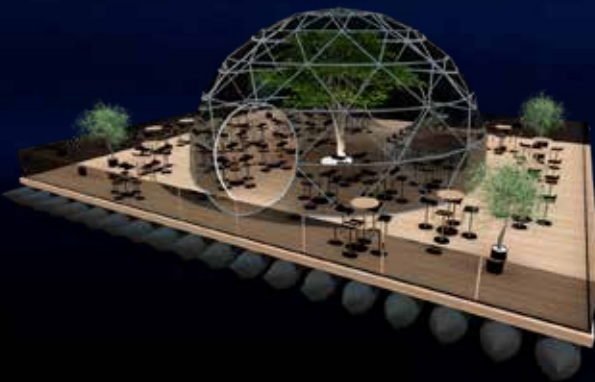

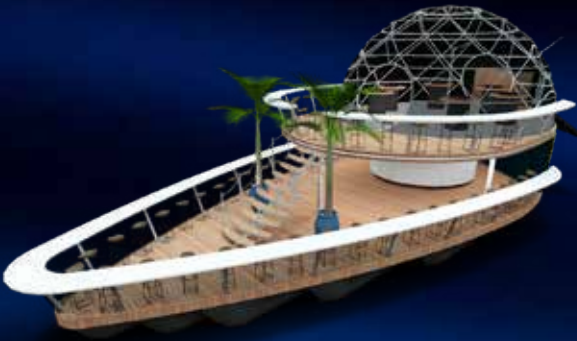

POSEIDOME®

by AQUA-MODULE & FREE HOME™

With an avant-garde design, resolutely ecological, and equipped with the latest technological advances, POSEIDOME® opens up new perspectives in the nautical activities segment.

Developed by the companies AQUA-MODULE and Free Home™, these luxury ships propel your events, over the water, into a new dimension where dream and reality become one!

POSEIDOME® offers its event range in three models: OFNI®, ATLANTIS® and NOVISLAND®, which will sublimate all your greatest occasions: congress, meeting, party, private evening ... Come aboard, Captain, for an extraordinary marine adventure and experience all the intensity of the ocean thanks to the POSEIDOME® genius!

OFNI[®]

With a diameter of 18 meters, this floating OFNI invites you into a new dimension, between ocean and firmament, to sublimate all your greatest occasions. It can be configured to meet your most demanding requirements and adapt to the operation you want to do with it. With its eco-sustainable design, it knows how to combine performance, comfort and durability.

18 m x 18 m - 231 m² - 180 pers.

ATLANTIS[®]

More than a luxury boat, the Atlantis opens up new perspectives in the nautical world. With an avant-garde and resolutely ecological design, this ship will make your events unforgettable!

19 m x 8 m - 200 m² - 120 pers.

POSEIDOME[®]
by AQUA-RETAIL & FURNISHING SYSTEMS

NOVISLAND[®]

With a refined architecture and playing on the transparency of materials, Novisland offers an extraordinary aquatic experience. This design makes it possible to envisage any type of destination for this large-scale structure.

18 m x 15 m - 270 m² - 200 pers.
